Subject: Sherry's Cell
Upper Animas Contact List combined 05MAY2015.xlsx

Joyel – I got Sherry's cell # from Francie MacDonald who had just talked to her this AM and she was driving to Durango with samples so she may be in cell range right now????

Her cell #: 720-934-9753

I've all attached the contact list that I developed when I came onto the UA project – in case any of the #s would be helpful to you??? its quite extensive but I've got it fairly well organized by organization/agency.
